

GLIMPSES SONG' LYRICS

SUNSET

*Let me take you near the sun
Far away from everyone
Where everything has began*

*We are dancing under the sun
Far away from everyone
Where everything has began*

SAME OLD

*I believe I lost connection
Everything has become obsession
Do you know the right direction
I need to find a new dimension*

It's the same old, same old

*I believe there is no perception
Of the hidden real oppression
It's like a state of intoxication
An anaesthetic to emancipation*

It's the same old, same old

It's the same old, same old

Behind the words of indoctrination

It's the virus of my generation

It's like a state of intoxication

An anaesthetic to emancipation

It's the same old, same old

It's the same old, same old

*I believe I lost connection
Everything has become obsession*

VERTEX

*Out of position
Line of division
Reverse conditions
Shaped by decision*

*In my own eyes
Doors of my mind*

*Vertex of precision
Inverse collision
Change of position
It's just a vision*

*In my own eyes
Doors of my mind*

SPHERE

*All is clear
In my sphere*

*I can now disappear
Inside all my fears
I can now reappear
Without any fear*

*All is clear
In my sphere*

*Inside my sphere
I can now disappear
I brake frontiers
Inside all my fears*

ODDS

*When nothing's left
I tried to guess
In between a thousand odds
A field of jumping frogs
Seems like a flock of swans

Looking for my different side
I have nothing else to hide
In between a thousand odds
I don't think I have control

What's coming next
It's hard to guess
I don't know what to expect
In between a thousand odds
I still think there is no god*
